

Acer India Pvt. Ltd is using Scalefusion MDM - Android Enterprise Certified Mobile device management solution to ensure the privacy of user-data.

Scalefusion considers protecting your personal data to be of paramount importance. It never sees your personal data and is compliant with the GDPR (EU General Data Protection Regulation, specifically but not limited to Article 6 (a) to 6 (f) and Article 28) as well as the Laws of India (together 'Applicable Law'), where ProMobi Technologies Pvt. Ltd. (the parent company of Scalefusion) is incorporated.

It never looks or have access into your personal device data like,

- Contact Info
- Calling & Messaging History
- Passwords, Images
- Web Browsing
- Applications

Scalefusion MDM is used only to share the educational material with the students through flash application. Students using flash application can refer and download educational materials.

Android enterprise-grade security features work together to help prevent leaks and phishing, block malware and make sure that enterprise data isn't lost. So it doesn't fall into the wrong hands.

Scalefusion successfully complies and meet all the data security requirements set by the Governments and Enterprise customers across the globe. Fully complied with SOC 2 Type II report and gets audited by independent firm. A SOC 2 Type 2 report is an internal controls report capturing how a company safeguards customer data and how well those controls are operating. Companies that use cloud service providers use SOC 2 reports to assess and address the risks associated with third party technology services.
